

Used To Be

Verse 1

I walk down down down the street to your home

But I stop right in front of your door

Thinking I can't bare to see you again

Everything we knew, yeah its all changed

Verse 2

So I walk back down down down the street where I came

filled with golden leaves but it's not the same

Cause I don't think I'll ever see you again

Stare at a photograph of your eyes instead

Pre-chorus

I stop and I look back

Will there be tears in your eyes?

I wish it was easy to leave this all behind

Chorus

I'm blocking out those thoughts in my head

Those thoughts that remind me of what I should've said
I'm creating a wall, a space between us
Cause I'm afraid I'll be reminded
And I'm afraid I'll be reminded
Of what we used to be x2

Verse 3

I'm having flash-backs playing with my mind
Of these moments thought I'd left behind
Shared a fantasy under the moonlight
Did we have a clue?

Verse 4

Cause we aren't what we used to be
And this ain't what I used to see
This autumn breeze has frozen our love over
Can you feel it to?

Chorus

I'm blocking out those thoughts in my head
Those thoughts that remind me of what I should've said

I'm creating a wall, a space between us

Cause I'm afraid I'll be reminded

And I'm afraid I'll be reminded

Of what we used to be x2

Bridge

I wish we were on the same path

Wish I could reset this heart

Nothing can change that

And nothing can save us now.

Chorus (quiet)

That's why I'm blocking out those thoughts in my head

Those thoughts will pull me from this cross-road ahead

I'm creating a wall, a space between us

Cause I'm afraid I'll be reminded

I'm afraid I'll be reminded

Of what we used to be x2
